

 **Cummings Properties**
Notice to Clients

**ELEVATORS #3 AND #4
AT 400 WEST CUMMINGS PARK**

As some clients may have noticed, passenger/freight elevator #3 and freight elevator #4 are currently out of service. We apologize for any inconvenience this outage has caused.

After researching the best solutions, we have determined to focus our attention on reactivating and upgrading elevator #3, and to permanently remove elevator #4 from service. We hope to engage a third-party vendor by the end of next week to complete this work. Given the significant work and mechanical components required for this anticipated upgrade, we expect this elevator should be operational again in mid-spring.

We will provide more specific updates as they become available. Until this project is complete, elevators #1 and #2 are available for use by all clients and visitors.

We appreciate your patience while we work diligently to resolve this issue. Please contact your account manager, Robb LaBossiere, at rrl@cummings.com or 781-932-7049 with any questions.
